Benefits

- Improve internal and external communications by standardizing notes
- Reduce the need for manual note entry on purchase orders, sales orders, production orders, and shipping documentation
- Access standard notes through data queries to drive actionable insights
- Automatically transfer notes between multiple Microsoft Dynamics AX order types

Predefined note setup

Standard, predefined notes can be set up in advance by managers, and note codes can be used so end users don't have to search for and select the notes each time.

Features:

- Create and customize note descriptions
- Classify notes by type (sales, purchasing, receiving, etc.)
- Classify notes as internal or external (to set restrictions)
- Attach standard notes to items, customers, and vendors
