

## Deferral of social security contributions

The umbrella organisation of the statutory health insurance (GKV-SV) has announced by notification of March 25 2020 that **social security contributions for months March and April 2020 can be deferred interest-free** in order to support companies affected by the Corona crisis. These contributions have to be paid on the **due date for the contributions for May 2020 (27th May 2020)**. In addition, no late payment surcharges or fees will be levied for the above-mentioned period. An extension of this measure is not planned for the time being.

Crowe Frankfurt is experienced in the area of filing applications for deferral of social security contributions. Therefore, we would be delighted to support you through this application procedure. Please do not hesitate to get in touch in case you would need any assistance in applying for a deferral of social security contributions at the responsible health insurance agencies.

We are of course at your disposal for any further questions.
